

**TECHNOLOGY IS ONLY AS GOOD
AS THE PEOPLE IT REACHES**

**GROWING GREEN:
THE SECOND GREEN REVOLUTION**

**THURSDAY, OCTOBER 30, 2008
7:15 AM - 5:15 PM**

TECHNOLOGY TRANSFER AND FEDERAL MARKETPLACE EVENT

GROWING GREEN: THE SECOND GREEN REVOLUTION

The U.S. Department of Agriculture's Agricultural Research Service (ARS) is one of the world's premier scientific research organizations. **GROWING GREEN: The Second Green Revolution** will solidify ARS's role in addressing global issues concerning biofuels, bioproducts and sustainability.

GROWING GREEN—unlike any other technology showcase—will feature technologies and projects by cross disciplinary teams of ARS researchers to provide solutions to important environmental and energy issues.

The day's dynamic agenda includes:

- Morning panel discussions presented by ARS research leaders on biofuels, bioproducts and sustainable agriculture research capacity
- Targeted solution-oriented breakout sessions where attendees can interact with ARS research leaders to discuss environmental and energy issues and solutions
- Networking reception
- Interactive demos, poster sessions, and talks on how to interact with ARS and funding opportunities

Keynote luncheon address: "ARS National Research Perspective on Developing Green Technologies," presented by ARS National Program Leaders, Robert Fireovid and Jeffrey Steiner.

SPACE IS LIMITED. REGISTER TODAY.

OCTOBER 30, 2008
